

TAKE AIM AT YOUR TOUGHEST FOAMING PROBLEMS

with Surtech™ OA Series Antifoaming Agents

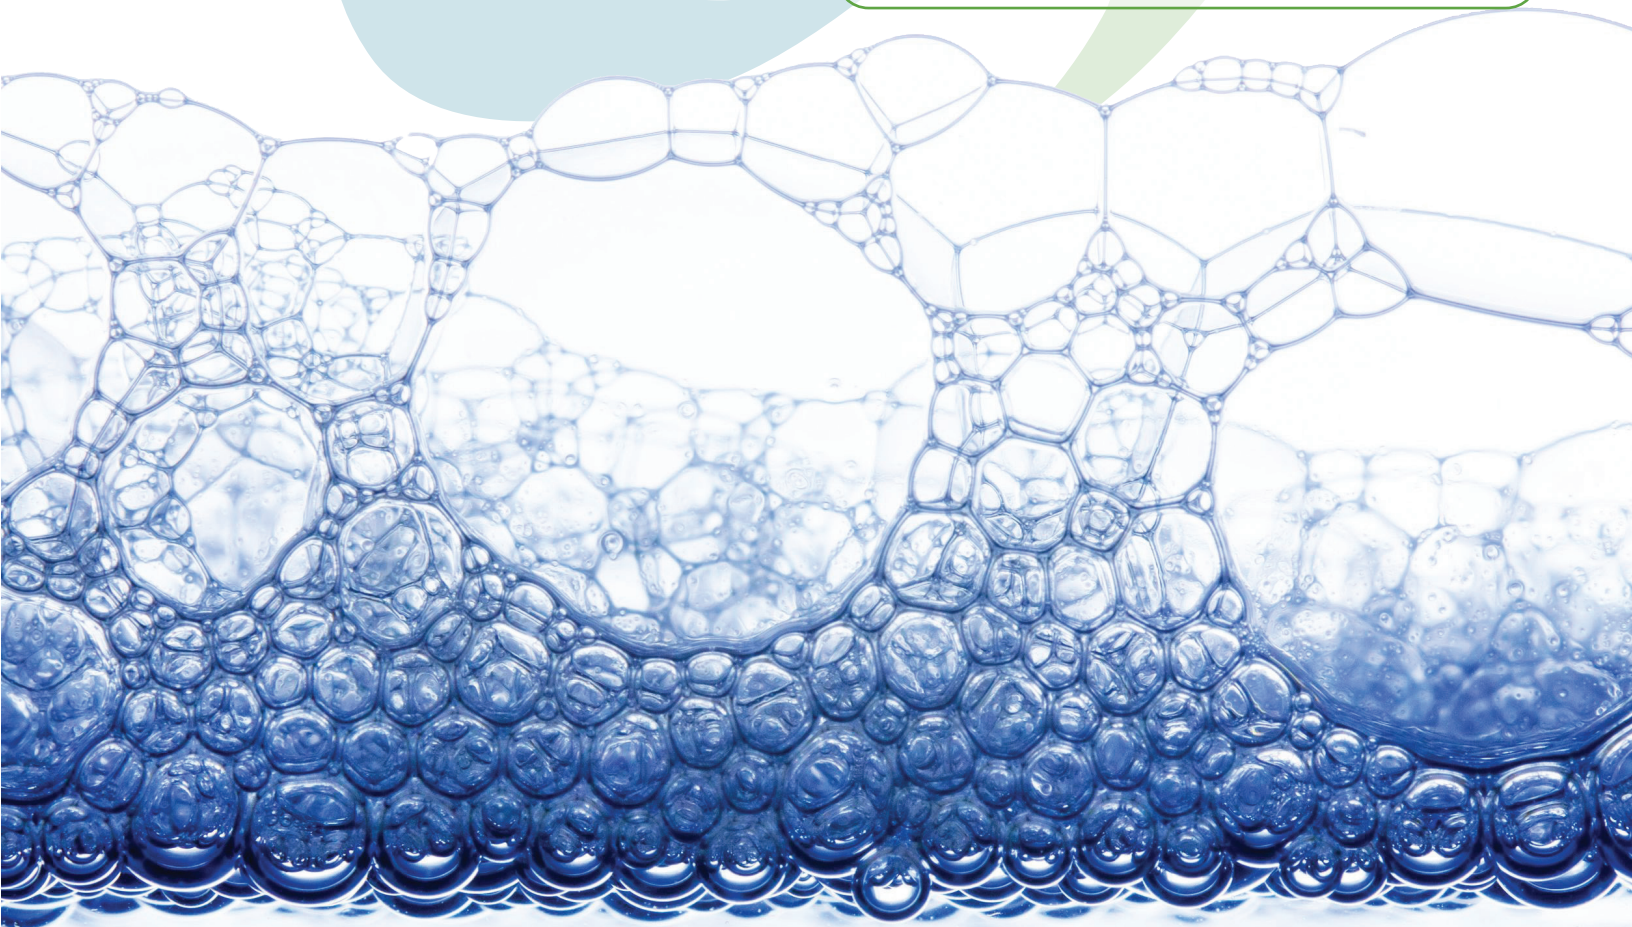

Surtech™ high efficiency OA Series antifoaming agents are specifically formulated to effectively handle your toughest foaming problems in Non-Aqueous Lubricant Systems

The Surtech™ OA series is designed to release entrained air in gear oils, metal cutting oils, hydraulic oils, motor oils, compressor oils and other non-aqueous lubricants.

Surtech™ antifoaming agents are high-performance antifoams that take aim and kill foam without reacting with your lubricant. They will not decrease the lubricity of the fluid and they will not stain non-ferrous materials.

Take the Surtech™ challenge and see how effective the OA series is in your lubricant. Send us a sample of your oil (without defoamer added) along with a sample of your oil (with defoamer) for a free foam control study. You'll be surprised by the results.

Enhance the performance of your lubricants by winning the battle with foam – use Surtech™ OA Series Antifoaming Agents.

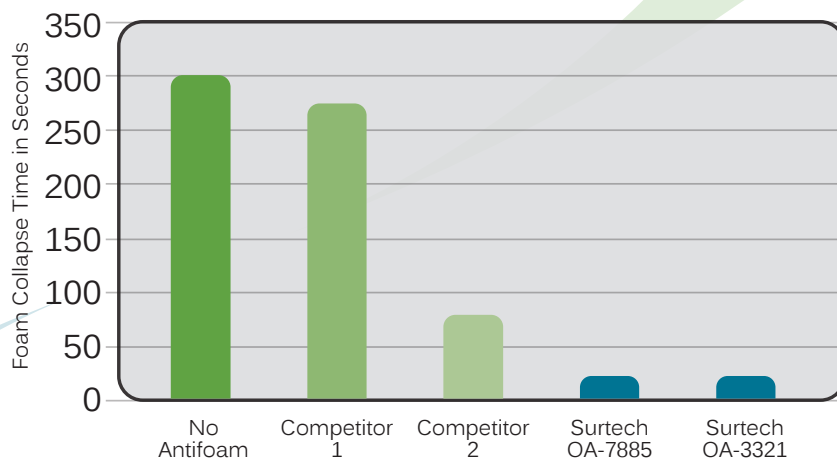

High Efficiency Surtech™ OA Series Oil Soluble Antifoams

High Standards... High Performance

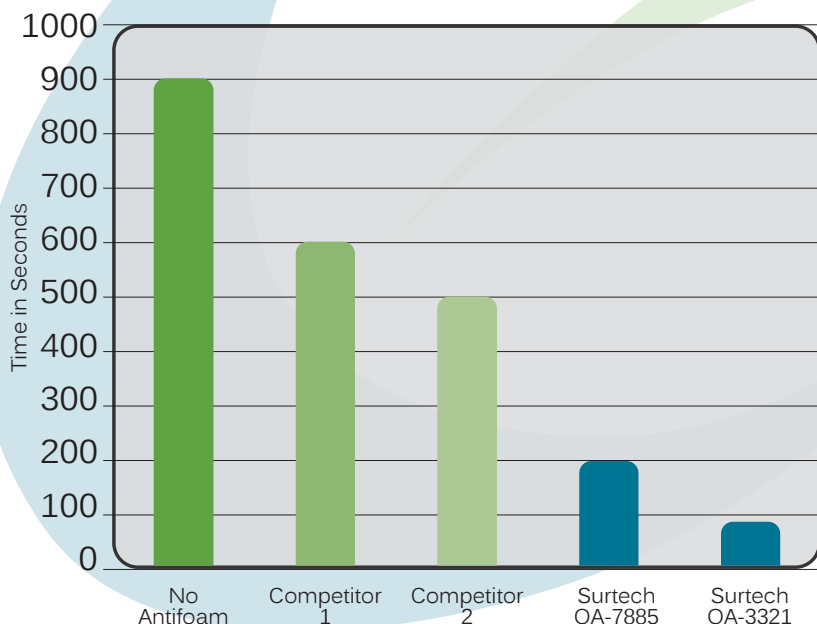

The high performance oil soluble antifoams that provide the benefits you need:

- **Long-Term Effectiveness**
More effective over a longer period of time
- **Clear Fluid**
Will not haze your product
- **Easy Dispersion**
Product quality is not comprised
- **Inert**
Will not affect lubricity and wear properties

Antifoam Performance in ISO-32
Hydraulic Oil at 100 ppm Actives Level

Antifoam Air Release Properties of ISO-32
Hydraulic Oil at 100 ppm Actives Level

About PMC Crystal

PMC Crystal is a performance chemicals company serving a wide range of industries. From waxes, rubber and plastics, processing aids and surface lubricants, wax emulsions, sodium and potassium soaps, cable filling compounds, to high performance antifoaming agents, Crystal is an industry leader. In addition, PMC Crystal offers a wide range of custom manufacturing services. Crystal's commitment to quality and total technical support sets it apart from the rest, and provides products and services that exceed customer requirements and expectations.
